

SUPPORTING FORCE SENT TO VERA CRUZ AS A PRECAUTION?

**Sending of Additional Men
Would Be Precautionary
Supporting Measure**

NOT AN AGGRESSIVE ACT

**Probable Military Order Will Not
Be Intended as an Aggressive
Measure by Administration**

CABINET DISCUSSES SITUATION

WASHINGTON, May 8.—High tension marked the Mexican situation today both on the military and the diplomatic side.

The war department was the chief center of activity and while no authoritative statement was made beyond Secretary Garrison's formal reply that "no orders for additional troops movements have been sent" it became known that the sending of additional troops to Vera Cruz was under consideration and probably would be carried out. This would not be intended in any way as an aggressive measure but as a reasonable precaution to support the force already there in case of any untoward event.

Such an untoward event is considered one of the eventualities which must be guarded against, although it is not regarded as immediately imminent. Of equally serious import to the troop preparations was the report late in the day that two German merchant ships were about to arrive at Puerto Mexico with large supplies of arms and ammunition for Huerta. It was realized that this, if true, would present an incident similar to the arrival of the Ypiranga at Vera Cruz with her cargo of munitions, which led immediately to the American occupation of that port. Huerta's protest to the mediators that the United States had broken the armistice by landing additional troops at Vera Cruz was considered by the cabinet and later Secretary Bryan announced that the reply of this government stated that no aggressive steps had been taken by the United States forces and that nothing had been done in violation of the suspension of hostilities. The American reply was delivered to the mediators late today. The mediators themselves also took the view that the question raised by Huerta over the observance of the armistice could be cleared away and that Huerta could be convinced that the United States had not violated, in spirit, at least, the armistice which had been agreed upon.

General Discussion of Situation.

The cabinet meeting brought out a general discussion of the Mexican situation. It was said after the meeting that the question of troop movements had previously been left with the war department and there was little doubt as to the sending of additional forces, wholly for precautionary purposes. It also became known in this connection, that inquiries have been made of the governors of states to ascertain the condition of national guards and how soon they could be prepared for active service if conditions required. This again is a precautionary measure, yet to be finally executed by the military authorities. The indications are that if national guards are called upon they would not be sent out of the country, but would be used on the Texas border, relieving regulars there who would thus be available for reinforcing the troops now in Vera Cruz.

Much Difference in Opinion.

The discussion of reinforcing General Funston at Vera Cruz has developed a marked difference of opinion in the cabinet. Some of the members take the view that the mediation negotiations might be embarrassed by such an act, while others believed that it was a necessary precaution against a sudden attack on the American forces stretched along the road to the water works. General Funston is understood to have told the war department that with the 7,000 men he now has his lines are vulnerable at different points and that a sudden attack along the railroad would necessitate the withdrawal of forces from other points which would be left unprotected. He has informed the war department that he will need at least 15,000 to 18,000 men in order to hold Vera Cruz as well as the outlying districts which he has now garrisoned. The decision as to the number of troops to be given General Funston has been left, it is understood, to the judgment of the general staff.

Secretary Garrison said that as yet no orders have been issued for any movement but it became known authoritatively that contracts had been closed for the chartering of several merchant steamers and that within a day or two formal orders would be issued. It is understood that some of the

BANKERS REFUSE TO EXTEND NOTES

**ATTEMPT TO READJUST FINANCES OF
GOULD SYSTEM FAILS**

Kuhn, Loeb & Co., Refuse to Extend the \$25,000,000 Missouri Pacific Railway Three Year Notes, Which Mature June 1st.

NEW YORK, May 8.—The latest attempt to readjust the finances of the Gould railway system came to naught today when Kuhn, Loeb & Co., bankers, announced their refusal to extend the \$25,000,000 Missouri Pacific railway three year notes, which mature on June 1st. The bankers declined to state the reasons for their conclusion except to say that "conditions governing the affairs of the property do not warrant such an undertaking by them at this time."

It is expected that a detailed statement dealing with Kuhn, Loeb & Co.'s examination of Missouri Pacific by their experts and probably incorporating the substance of their offer or communications to the Gould interests will be issued early next week.

Directors of the Missouri Pacific were holding a special session at the time the bankers issued their statement but soon adjourned to meet again tomorrow when it is likely some arrangement will be made to meet the Missouri Pacific notes, Sneyer & Co., who floated the notes now falling due and who are represented in the Missouri Pacific directors, would not discuss the latest turn of events, except to express the belief that the demands of the note holders would be met.

CONFERENCE ON CHARITIES AND CORRECTIONS OPENS

**Meetings at Memphis Will Continue
Until May 15th.—Pres. Taylor
Makes Opening Address.**

Memphis, Tenn., May 8.—A week's discussion of charities and corrections as handled by thousands of trained workers in various fields was started tonight when delegates and visitors from all parts of the country met in the opening session of the National Conference on Charities and Corrections. The meetings will continue until May 15th. Prof. Graham Taylor of Chicago, president of the conference in his opening address spoke on the growing tendency toward having public official agencies take over humanitarian functions heretofore handled by religious and volunteer organizations. His subject was "The county—a challenge to humanitarian politics and volunteer co-operation."

"The overflow of religious and other volunteer effort into public administration is impressively apparent," Prof. Taylor said, "especially in the country's care of the poor, the aged, the sick, the defective, the widow the homeless stranger, the prisoner and in its promotion of social welfare, both in county and in the city."

Affiliated organizations including the national probation association, the national conference of Jewish charities and several others, held sessions today. For the first time in its history the national conference of Jewish charities is headed by a woman, Miss Minnie F. Low, of Chicago, having been elected president today.

PRESIDENTIAL YACHT LEAVES TO MEET CRUISER MONTANA

**The Two Vessels Will Reach New
York Sunday—Memorial Services
For slain Americans Will Be Held
Monday Morning.**

Washington, May 8.—With Secretary Daniels and a party of navy department officials aboard, the presidential yacht Mayflower steamed down the Potomac late tonight to meet at the Virginia Capes the Cruiser Montana, ringing home the bodies of the American victims of the seizure of Vera Cruz. The Mayflower will reach Hampton roads early tomorrow and probably soon afterward will join the Montana, which tonight was steaming northward from Hatteras.

The two vessels will proceed to New York, anchoring Sunday afternoon. The funeral cortege will move from the Battery at 9 o'clock Monday morning and proceed to the Brooklyn navy yards, where it will halt at City hall plaza where school children will chant a hymn in honor of the dead. Detachments from the battleships Wyoming and Texas, the New York naval militia, Spanish War veterans and numerous civilian bodies will have places in the line.

President Wilson's tribute to the valor and sacrifice of the blue-jackets and marines will be the only address of the memorial services. Prayers and benediction will be said by Chaplain William G. Cassard, U. S. N., Rabbi Wise and the Very Rev. John P. Chadwick.

KENTUCKY DERBY TODAY.

Louisville, Ky., May 8.—Many notables in turf circles of the United States are gathered in Louisville to witness the fortieth annual Kentucky derby at one mile and a quarter, which will be run tomorrow afternoon at Churchill Downs track. With \$10,000 added the purse this year will reach approximately \$13,500, or about \$10,000 to the winner.

JURY IN LIEUT. BECKER CASE IS COMPLETED

**DISTRICT ATTORNEY WHITMAN WILL
ADDRESS JURY THIS MORNING.**

Prosecutor Will Charge That Becker Was "Brains" of the Conspiracy to Kill Herman Rosenthal and For Which Four Men Have Already Paid the Death Penalty.

NEW YORK, May 8.—The jury which will determine whether Chas. Becker, the former police lieutenant and head of the "strong arm" squad conceived the plot that resulted in the murder of Herman Rosenthal, the gambler, was completed late today. An adjournment was taken until 10:30 o'clock tomorrow morning when District Attorney Whitman will address the jury, charging that Becker actually was the "brains" of the conspiracy.

The jury as finally completed is as follows:
Foreman, F. Meredith Blagden, 28 years old, a bond merchant.
James M. Faust, 29, a real estate dealer.
Thomas W. Edwards, 30, a chemist.

Edward E. Van Eman, 35, dry-goods salesman.

Paul D. Camers, 36, a bond salesman.

Robert Baxter, 30, a clerk.

Dio L. Holbrook, 48, marine engineer.

Philip Hoff, 36, civil engineer.

Walter Goodyear, 54, a book publisher.

Gilbert Shaul, 32, a manufacturer.

Ephraim Plummer, 68, a retired salesman.

Wilbur F. Rawlings, 35, a salesman.

After a hundred and twenty-one talesmen had been examined during the forenoon and afternoon sessions the jury was completed shortly before four o'clock and Shaul was taken to an uptown hotel to spend the night.

No mention was made during the day of the reported move to have W. Bourke Cochran of counsel for Becker, adjudged guilty of contempt of court for a remark attributed to him. He had been quoted in the newspapers as saying:

"This is not a trial; it is an assassination."

Cochran has not been in court since he made this alleged remark. He added at the time that he was "through with the case," it is said.

Ask to Be Excused.

Reports were current tonight that two and possibly three of the jurors had asked Justice Seabury to be excused. It was known that Juror Philip Loff sent a written request to the justice, who, it is understood, promised to take it under advisement.

Juror Gilbert S. Shaul had a consultation with Justice Seabury at the close of which the justice shook his head vigorously.

Mr. Whitman admitted that one or more of the jurymen might be excused at the opening of court tomorrow, but said he did not see the necessity for such action.

BILL OF EXCEPTIONS IS RECEIVED AND ALLOWED

**Bond is Filed in Thaw Case Covering
Transfer of the Case to the
Supreme Court of the United
States.**

(Concord, N. H., May 8.—A bill of exceptions filed by counsel for New York state in relation to the decision of Federal Judge Edgar Aldrich granting the petition of Harry K. Thaw for a writ of habeas corpus was received and allowed today by Judge Aldrich. Counsel filed a bond covering the costs of the transfer of the case to the supreme court of the United States which will determine Thaw's legal status. Thaw was not in court but was represented by Merrill Shur left, an attorney of Lancaster. William T. Jerome and Franklin K. Kennedy of New York and Bernard Jacobs of Lancaster appeared for New York state.

So far as it is known here, Thaw will remain in Concord in custody of Sheriff Holman Drew of Coos county, pending the supreme court's decision. The case was removed from the United States district court when Judge Aldrich signed an order dismissing Thaw from custody under the previous proceedings. Under the appeal of the New York legal representatives, Thaw was returned to the custody of Sheriff Drew.

CREATES SENSATION.

Havana, May 8.—A sensation was created in the house of representatives this evening when Representative Sagara announced that big fraud being perpetrated with lotter tickets by the printing of two series, one genuine for the Cuban government and the other spurious for sale abroad. Senator Sagara said the persons sending abroad the spurious tickets were reaping a profit of \$70,000 each month from their sale.

The director of the lottery declared emphatically that no illegal tickets were being issued.

FIRST NURSES CALLED.

Washington, May 8.—The first American Red Cross nurses to be called for service at Vera Cruz received their orders tonight and will leave for Mexico in the next few days. They are Misses Lila T. Lloyd, Nannie B. Haray and Kathryn Donnelly, all of Washington.

WASHINGTON, May 8.—Plans for an early adjournment of congress took more definite shape today when the senate advanced its meeting hour from noon to 11 o'clock and house leaders issued the formal call for a Democratic caucus next Tuesday night when a "legislative program" will be laid out which will include adjournment as a leading feature. If the senate holds to the new meeting hour and insists on a few night sessions leaders believe that the hope of adjournment July 1st, may be realized. The house caucuses Tuesday will issue a resolution calling for changes in meeting hours.

It is not expected that there will be any opposition to its adoption. The senate changed its meeting hour today in order that it might hasten passage of the agricultural appropriation bill. There was one cloud on the adjournment horizon when talk was renewed of an attempt to reach a vote at the present session of the proposed constitutional amendment for a nation-wide prohibition. The resolution proposing the prohibition amendment will be taken up in the house under a special rule tonight within a week, so that action may be taken promptly. Its passage requires a two-thirds vote and leaders expect the fight to be close. There is a growing disposition on the part of senators to take the attitude that if the house passes the anti-trust legislation and the senate becomes so tangled up with it that there is little prospect of an agreement for months adjournment should be taken without anti-trust action by the senate.

Last Day of Subscriptions.

The reserve bank organization committee announced tonight that while this was the last date on which subscriptions of stock to federal reserve banks could be made by banks that are to become members of the system, it would receive such subscriptions as actually were forwarded today, although they may not reach Washington for several days. The penalty for not completing subscriptions is forfeiture of the charter of the bank. The committee's mail today was heavy and included hundreds of subscriptions of stock but no official statement of the receipts was made. The minimum capital for each of the twelve reserve banks had been subscribed yesterday.

President Wilson has not yet decided on the man for the place on the reserve board left vacant by the resignation of Richard Olney to serve. It was said authoritatively today that no member of the cabinet would be chosen.

TO MAKE SURVEYS AT ONCE.

Washington, May 7.—Surveys preliminary to the construction of the government railway in Alaska are to be made immediately. On being advised that the president desired to send Lieut. Mears, now in the canal zone to Alaska at once, the house today passed a bill authorizing the assignment.

ALL QUIET IN COAL FIELDS OF COLORADO

**NO NEW DEVELOPMENTS ON EVE OF
DISARMAMENT TODAY**

Military Authorities Have Posted Notices Directing All Civilians to Report With Their Arms at Specified Places—Col. Lockett Declines to Send Troops to Northern Fields.

TRINIDAD, Colo., May 8.—All was quiet tonight in the coal mining fields of Colorado on the eve of the disarmament tomorrow, order for which was posted today by the military authorities. All civilians were directed to report with their arms at specified places at specified hours.

"Any member of the union failing to comply with the order to surrender weapons, will be stricken from the relief list and barred from membership in the United Mine Workers of America," concluded the union order, sent out by William Diamond, international representative of the union.

Col. James Lockett, commanding the Eleven United States Cavalry, detailed to the southern strike district, declined today to detach a detail from his force to go to the northern fields to which he had been urged to send help. Colonel Lockett advised Governor Ammons that he might send state troops thither if he thought it necessary.

Debate Arbitration Bill.

Denver, Colo., May 8.—The compulsory arbitration bill and the administration bill authorizing the governor to forbid the importation of arms ran the gamut of debate in the senate committee of the whole today. The arbitration bill passed for final passage on third reading when the senate reconvenes Monday. The arms bill was referred back to the judiciary committee.

The house today debated the bill submitting a \$1,000,000 bond issue for military expenses. Final action was deferred until tomorrow. Just before adjournment Representative C. J. Leftwich introduced a bill for a fifth military levy to liquidate past military indebtedness.

\$65,000,000 REQUIRED TO EFFECT GENERAL IMPROVEMENTS

**Rock Island Must Make Outlay to
Place System on Proper Physical
and Financial Basis.**

New York, May 8.—According to E. W. McKenna, a railroad expert engaged by the bond holders protective committee of the Chicago, Rock Island and Pacific railway company, approximately \$65,000,000 will be required to effect such economies and general improvements as are necessary to place the system on a proper physical and financial basis. Mr. McKenna's report which has been awaited with much interest by holders of Rock Island securities and which became available today, is rather more exhaustive than that made some weeks ago by T. M. Schumacher, the chairman of the Rock Island company, who estimated the system's needs at \$49,000,000. Regarding the roads physical condition the McKenna report says that about 20,000 cars ought to be retired. He recommends an investment of about \$15,000,000 in new cars which would increase the fleet by at least 50 per cent, he estimates. Capital requirements, as contemplated by Mr. McKenna, for about \$41,000,000 the expenditure of which, he says, would result in increased revenues over existing conditions of at least \$5,000,000.

Construction of a short line from Chicago to Kansas City by way of Peoria, Illinois, and Keokuk, Iowa, would also have a potent effect, says Mr. McKenna, in reducing transportation expenses. These and other improvements, he believes, would go far toward restoring the stock of the railway company to at least its par value.

CARRANZA ESTABLISHES HIS TEMPORARY CAPITAL IN TORREON

Torreón, Mex., May 8.—General Carranza arrived here today with his staff and members of his official family and established his temporary capital here. General Villa met General Carranza at the station and escorted the party to his residence here. Government officials today took occasion to deny reports that General Chao had been threatened with death by General Villa. General Villa and Chao spent a part of the day together at constitutional army headquarters where they engaged in earnest conversation and later dined together. There was nothing to indicate friction between them.

Constitutionalist officers asserted the necessity of having every officer of experience in the field in the campaigns against Saltillo and San Luis Potosi against Chao's departure from Chihuahua.

General Carranza and the officials of the constitutionalist government will remain here for a time. Their future movements will depend on the successes attending the constitutionalist army.

NO CHANGE IN MILITARY SITUATION IN VERA CRUZ

**ORDERS FROM WASHINGTON PRE-
VENT ANY ACTION BEING TAKEN**

Officers in Mexico Are Agreed That An Extension of American Lines is Desirable For the Protection of Food and Water Supply of Vera Cruz.

VERA CRUZ, May 8.—Reports of rebel victories continue to reach Vera Cruz both through refugees and in unofficial advice, the only sources of information here as to what is going on elsewhere in Mexico. It was reported today that Emiliano Zapata had taken Cuernavaca, capital of the state of Morelos, which is within forty miles of Mexico City. It is said, however, that Zapata could have taken it at any time, only a slight attempt having been made to defend it. The reports of rebel successes are still being suppressed in the capital and few persons there know of General Villa's steady approach from the north.

Americans traveling between the capital and Vera Cruz are impressed most by the solicitude of Huerta's officers for the safety of all foreigners, especially Americans. The recent arrest of two Englishmen who subsequently were released, called forth a reprimand from the federal officers from President Huerta. Travelers who arrived here from the capital today report that normal conditions exist there.

The military situation in Vera Cruz is unchanged. There were various reports today of large bodies of federal troops near the city. These reports were characterized by Brig. Gen. Funston as exaggerated.

The military officers are agreed that some extension of the American lines is desirable for the protection of the food and water supply of Vera Cruz. The orders from Washington that the lines be not extended thus far have prevented any action being taken, but it is believed the army officers are pressing the war department for permission to make the military situation complete.

If Washington approves the troops here probably will be increased, thus leaving the advanced base marine regiments free for any calls from coast towns.

Reports received from Mexico City say that refugees are moving freely from the capital toward Puerto Mexico. The shortage in the oil fuel supply probably will reduce the facilities of the railroad within the next few days and the federals are expediting the movement of foreigners towards the coast.

The naval transports Hancock and Morris Castle are still here.

HUERTA SHOWS NO INTENTION OF ABANDONING PRESIDENCY

**Mexicans Arriving in Vera Cruz From
Capital See No Indication of His
Resigning.**

Vera Cruz, May 8.—Mexicans arriving here today from Mexico City say that General Huerta shows no intention of abandoning the presidency of Mexico. The president they assert is popularly credited with having made a statement that he would see the capital in ashes before he left it. That the American forces at Vera Cruz are violating the armistice by landing more troops, ordnance and supplies, is the charge made by Mexico City papers which are under the domination of President Huerta.

Reels in the vicinity of the federal capital particularly the followers of General Zapata are continuing their campaign against the Huerta administration.

BIRMINGHAM SUFFERS HEAVY FIRE LOSS; TWO LIVES LOST

BIRMINGHAM, Ala., May 8.—Fire which destroyed the general office building of the Birmingham Railway, Light & Power company in the business district here late today cost two lives and possibly more.

Moody Childers and Henry K. Keyser were killed when they jumped from the top floor of the four-story building.

A. S. Millbratt was badly burned. Whether all of the other 200 employees of the company, in the building when the fire started escaped, was not known tonight. The girls were seen at an upper window soon after the first floor was ablaze. The property loss was estimated at \$175,000.

ARGUMENTS MADE IN LAST CASE

Washington, May 8.—Arguments in the last case to be heard by the supreme court until next October were made today. It is understood that an attempt will be made to decide all of the 150 cases still undecided by the court before adjournment for the summer. In accordance with this plan the court probably will hold sessions to announce opinions on May 11th, May 18th, June 1st and June 15th.

SCALE COMMITTEES AT PEORIA REPORTED NEAR SETTLEMENT

**Illinois Miners and Oper-
ators Agree on All But
One of the Questions**

OPPOSE THE INCREASE

**Operators Object to Increase of
Four Cents for Southern Field
—May Settle Point Today**

VARIOUS MINES ARE IDLE

PEORIA, May 8.—In a session which continued until after midnight the joint scale committee of the Illinois miners and Illinois coal operators agreed on all debated questions but the increase of four cents for the southern field. At a meeting tomorrow the question of the southern rate will be referred to the miners convention. If the miners agree to waive the increase in the southern field, in favor of the tentative report which the committees will present, the wage scale for Illinois miners will have been agreed upon and will be signed by the officers. If they still persist in demanding the raise, the negotiations will be broken off and a strike may result. In striking the miners would sacrifice the other favorable advantages which they believed they have gained by the concessions of the operators in the joint scale committee. Secretary McDonald of the Illinois miners said he was anxious to let the miners all over the state know that an agreement had been reached, except in the southern field, and said he believed the convention would settle that point tomorrow. He stated that various mines were idle pending the result of the joint conference here and added that these might again proceed with the production of coal thus inferring the miners would not press the demand for an increase of four cents in the southern field. The arbitration proposition which has been bitterly contested was settled by a compromise. Leaders of both factions said the proposition as amended is unsatisfactory to both but that the compromise had to be effected in some way. As it is now, when the scale contract has been violated by either operators or miners the violation will be submitted to an arbitration board of such sub-district and only in specified violations will a state arbitration board be given the power to act. The operators asked for a state board in the beginning, for settling all grievances. The miners asked that the board be divided into nine sections, one for each sub-district. Splitting the violations with which the state and sub-district boards may deal was the compromise effected.

AMERICAN CATTLE COMPANIES APPEAL FOR PROTECTION

**General Quevedo Demands \$10,000
Under Threat He Would Destroy
Wind Mills on Ranches.**

El Paso, Texas, May 8.—The demand of General Rodrigo Quevedo that three large American cattle companies give him sums aggregating \$10,000 under threat that he would destroy the windmills on their land has not been complied with. When the time limit fixed by Quevedo expired at sundown tonight the money had not been left as he directed at a lonely hacienda near Nogales, Ariz.

Instead the three companies Palomares Land and Cattle company, the Corlitz Cattle company and the San Pedro Cattle company made pressing appeals for protection to General Villa, General Carranza and Secretary of State Bryan. They are awaiting anxiously to see what action is taken by the band under Quevedo, for it is estimated that if the windmills are destroyed a million dollars worth of cattle would die of thirst within a week.

Quevedo formerly was a brigadier general in the Mexican regular army and still is said to maintain a nominal allegiance to Huerta.

When Chihuahua passed into possession of the constitutionalists, he said he escaped across the border where he recruited a band of federal deserters and refugee and led them back into Chihuahua. He has raided ranches as far south as Agua Calientes and also is said to have run off stock from this side of the line.

EVERY MEMBER CANVASS AT EBENEZER CHURCH

Preliminary Meeting Addressed Last Night by Jacksonville Men—Campaign Will Be Inaugurated Sunday Afternoon.

Several Jacksonville speakers took part in the Every Member Canvass of the Ebenezer church, which was held at that church last night, the pastor, Rev. W. A. Boyd being chairman of the occasion. The Every Member Canvass Campaign has been proving quite popular wherever used. By this method the men of Ebenezer church expect to raise their benevolence. J. W. Breckon told of the work in connection with Grace M. E. church, State Street church, and the Methodist church of Franklin; Edward Saye told of the manner of work at Centenary M. E. church. Rev. C. W. Flazge and Rev. G. W. Miller told what had been accomplished in their churches and how much it meant to the church itself.

Henry Muehlhausen took the speaker out in his Oakland auto and he was called upon for an address. John Hadden was also a speaker and the list of talks were heard with great interest. The only song of the evening "We're Here Because We're Here," was led by Charles Rowe.

Substantial refreshments were served and it was agreed that next Sunday afternoon six teams of four men each would be put in the field and all the families of the church were requested to remain at home while the teams were at work.

SOCIAL EVENTS.

Members of Minnetonka council of the Degree of Pocahontas gave a surprise party Wednesday night for Mrs. Belle Seymour at her home on North Clay avenue. The members of the party took refreshments with them and several hours were spent in a pleasant manner. There was a program of music and games and altogether the occasion was an enjoyable one.

The annual outing of active and honorary members of Sorosis was held Friday afternoon at Fairview, the home of Mrs. Thomas J. Pitner. The event partook of the nature of a garden party and a delightful social afternoon was spent. A course supper was served in the house, it being too cool for a picnic supper, which is usually served. This was the last meeting of the year and the programs for 1914-15 were distributed and the following officers for the ensuing year were installed:

President—Mrs. J. Weir Elliott.
Vice-president—Mrs. W. H. H. King.
Recording secretary—Miss Louise Capps.

Corresponding secretary and treasurer—Miss May Dummer.
Custodian—Mrs. Thomas J. Pitner.

Mr. and Mrs. Joshua Vasconcellos were pleasantly surprised Friday evening when twenty-six friends called without warning at their home, 1060 North Fayette street, and took possession of the house for a merry season of social enjoyment. Music was a feature of the entertainment and at a convenient hour, refreshments were served.

The Woman's club will hold their May breakfast at the Central Christian church this morning at 11 o'clock. Among the speakers will be Mrs. Eugenia Curry of Mt. Sterling, Mrs. Elizabeth Koch and Miss Katherine Olmsted. Officers for the coming year will be elected.

CLOVER LEAF-WEEVIL

Morgan county farmers are worried just now to some extent at least by the appearance of an insect which is eating away in the clover fields. Frank J. Hein has in his reference library bulletin No. 134 issued by the University of Illinois experiment station, which describes the clover leaf-weevil, known scientifically as *Paysonomus punctatus*, which is undoubtedly the insect at work now in Morgan county fields. The facts set forth in the bulletin are as follows:

Though this insect must be counted among the most important clover pests, it has not as yet established itself as an annual menace to the hay crop. Indeed it is ordinarily held in check by a great variety of adverse influences, and seldom gets control of the plant—reminding one, in this respect, of the army worm.

In early spring the larvae have begun to grow; later they eat inward from the margin, the injury increasing in April and May. Throughout the summer the beetles gnaw the clover leaves in a ragged fashion and may even eat the plant down to the roots.

The larvae or beetles are not seen in the daytime, unless one hunts for them; they are nocturnal in their activity. The larvae, curled up under rubbish on the ground, are green with a white stripe along the middle of the back; they have no legs and are sluggish when inactive. The adults—tough, oval, brown beetles—are also found on the ground during the day, motionless, with the legs and antennae drawn up against the body, or else moving away sluggishly when exposed to the light.

Distribution—Though this species has been familiar to European entomologists for more than a century, occurring as it does throughout Europe and in western Siberia, it was not recognized in this country until 1881, when its ruinous work was reported from Yates county, New York. At present the species is known to occur in Vermont, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, West Virginia, North Carolina, Ohio, Indiana, Illinois, Michigan and Wisconsin, and also in Ontario, Canada. From the data collected by F. M. Webster, the insect appears to have spread from New York into Ohio, then westward; also from New York into Canada. At Ridgeway, Ont., Mr. A. H. Kilman found that the beetles were being brought by the east wind, August 10, 1884. On the same day, at Buffalo, N.Y., ten miles due east of Ridgeway, and across the lake, the beetles swarmed on the pavements and could be collected by the quart along the lake shore. Reinecke noted their abundance in Buffalo following a heavy east wind.

Food Plants and Injuries—The food plants in Europe are given as Trifolium (clover) and Medicago sativa (Lucerne alfalfa). In the United States the insect eats all kinds of clovers, and alfalfa as well. The other food plants that have been named, are beans and timothy for the larvae and burdock and the flowers of goldenrod for the beetle.

Webster observed a preference for white clover over red. In central Illinois red clover is most heavily infested, alfalfa coming second, and white clover third. Mammoth clover and alsike are freely eaten if they happen to be available.

European accounts refer but scantily to this species as a pest aside from references to its devastations in Italy in the years 1867-70; and in this country the insect, though often abundant, seldom accomplishes the injury anticipated because the larvae are usually killed in spring by a fungous disease. When the species cooperates with the root borer, in a time of drought, injury of the worst kind may ensue.

The larvae eat the leaves and the beetles eat the leaves and stems also, as described later.

Description—The egg is easily visible as a yellow object (chromo-yellow at first), elongate oval, 1.1 mm. long and 0.6 mm. broad. It darkens in from two to six days after being laid, and the surface is then rough, and sculptured with hexagonal depressions.

In the clover field the larvae of this species (Fig. 13) can not easily be mistaken for anything else. They are green usually and lie on the ground curled head to tail. Close examination shows that they are footless and have a brown head, while along the middle of the back is a white or pale yellow stripe edged with rose red or blackish red. The youngest larvae, to be sure, differ from this description, for when only 1.5 mm. or 2 mm. long, they are white or a pale yellow, with a jet black head and only a suggestion of the characteristic median dorsal stripe; they are curled up on the ground and sluggish, however, just like the older larvae.

The beetle (Fig. 16) is a stout oval, brown, finely punctured curculio. The female is about 8 mm. in length and 4.5 mm. in greatest width, some specimens being as long as 8.5 mm. The prevailing color above is brown, but the sides of the pronotum and elytra are washed with pale yellowish brown, which on the elytra covers the outer five interspaces.

The male, 7 mm. in maximum length, differs from the female in being smaller and narrower, with the sides of the elytra less rounded. (To be continued.)

SURRENDERED BY BONDSMEN. Pontiac, Ill., May 8.—Fred G. White, former county judge, convicted of having forged the name of David S. Meyers, head banker of the Modern Woodmen of America, to a note for \$2,400, was at liberty on a writ of supersedeas after serving three days in the penitentiary was surrendered by his bondsmen today. He was arrested in Chicago and returned to Joliet to resume serving an indeterminate sentence.

A Great Stable This

Our stable of stallions is one in which we can justly take a large amount of pride. In offering them to the farmers and stockmen of this and adjoining counties we know that they cannot fail to be pleased with the individual quality of the animals. The speed and draft stallions alike have great records and each one represents the best which breeding can bring.

CO. B., RECEIVES COMMISSARY CHEST FROM SPRINGFIELD OFFICE

Contains Necessary Equipment For
Company's Commissary Depart-
ment.—Outfit For Cleaning Rifles
is Also Received.

While war talk has somewhat di-
minished of late, preparations for
possible hostilities have not ceased
and the Illinois National Guard is
getting ready for any eventuality.
Capt. Owen has received a commis-
sary chest for Co. B., which contains
a vast amount of equipment. The
chest itself is built for hard army
service and is most durable. The
contents are packed in a very com-
pact manner, all of the space of the
chest being utilized. Capt. Owen
has also received an outfit contain-
ing chemicals, oils, etc., for use in
cleaning rifles.

A list of the contents of the chest
follows:

Top—1 meat saw, 2 meat saw
blades and 1 hand saw. Bottom—1
axe, 6 cotton bags, 50 pound capaci-
ty; 6 cotton bags, 100 pound capaci-
ty; 1 bag for nails, 6 gunny bags,
100 pound capacity; 1 box scraper,
2 candlesticks, 1 cleaver, 100 feet of
clothesline, 2 wooden faucets, 1 fun-
nel, 1 hatchet handle, 1 hammer
handle, 6 meat hooks, one half
pound 4d nails, one half pound 6d
nails, one half pound 10d nails, 6
packing needles, 3 lumber pencils,
1 spring balance scale, 1 small scoop,
1 tap borer, 1 large scoop, 2 pounds
sacking twine, 2 folding lanterns, 1
4-ounce oil solder, 1 measure and 2
wedges.
Lid—1 hatchet, 1 screwdriver, 1
hammer, 1 butcher steel, 1 box op-
ener, 2 butcher knives and 3 can
openers.

The bags are for use as recepta-
cles for beans, potatoes, rice, etc., re-
ceived from the commissary depart-
ment. The contents of the chest were
assembled by W. G. Hitchcock.

ANTI-SULLIVAN MEN NAMED.
Washington, May 8.—Roger C.
Sullivan received another swat yester-
day when President Wilson sent
to him to the Senate the nomina-
tions of Edward C. Knotts of Carlin-
ville, to be United States attorney
for the Springfield District, and
Cooper Stout of Murphysboro, to be
United States marshal for the East
St. Louis District. These men are al-
lied with Sullivan in the Democratic
politics of the state.

Knotts was the choice of Repre-
sentative Graham. Sullivan's choice
was John E. Hogan of Taylorville.
Other candidates were Thomas P.
Efrns of Springfield and H. W. Po-
guet of Jerseyville. Stout was the
choice of Representative Hill. Sulli-
van's man was A. W. Charles of Car-
linville, chairman of the Democratic
State Committee. Representative
O'Hair supported Seymour Hurst of
Marshall.

Interest now centers in the con-
test for marshal of the Springfield
District. Sullivan's candidate is R.
F. Kinsella of Springfield. Gov. Dun-
ne, Senator Lewis and Representative
Graham have endorsed Vincent
Y. Dallman of Springfield. Other
candidates are O. F. Dunnam of
Paxton and Sheriff Henry of Ed-
wardsville. Representative Fitzhen-
ry of Bloomington also has a candi-
date.

WILL TRY PROPERTY RIGHTS.
In the county court Friday W. H.
Naylor by his attorney J. O. Priest
filed legal notice for a trial rights of
property. This action was taken
owing to the fact that Thursday
Sheriff Rogers levied on the street
sprinkling outfit purchased by Mr.
Naylor from P. C. Maddox. The
Standard Oil Co. by the action of
their attorneys, Bellatti, Bellatti &
Moriarty, secured a judgment in the
county court against Mr. Maddox
April 28th and May 7th an execution
was issued and the levy made on the
property sold to Mr. Naylor by Mr.
Maddox. The trial of property rights
is to be had May 18th.

The attorneys for the Standard
Oil Co. maintain that this is a case
where the debtor and creditor act
is operative. This law was passed
by the last legislature and requires
that in certain cases, the vendor five
days before transferring chattel
property shall file with the vendee
a list of creditors and that five days
before taking possession of the prop-
erty the vendee shall notify the cred-
itors of his intended action.

selves of the bargain opportunities.

SENTENCE IS COMMUTED.
Springfield, Ill., May 8.—Dan-
Crowley, sentenced to the house of
correction for six months last Jan-
uary, upon conviction of the crime
of attempted larceny, had his sen-
tence commuted to expire at once.
Crowley is suffering with an attack
of pneumonia and clemency in his
case was recommended by both the
state's attorney and the trial judge.

BRIDE IS HELD PRISONER.
Ottawa, Ills., May 8.—Joseph
Kazmuskis filed a petition for a
writ of habeas corpus here today,
charging that his bride of four days
is being held a prisoner by her par-
ents in LaSalle. Judge Davis or-
dered the parents to produce their
daughter in court tomorrow morn-
ing.

ZELL'S GROCERY

Putting on the Fat

Out on my farm I am giving a practical demonstration of what can be accomplished with the Wood's Grain Softener.

There are 43 cattle in the bunch. Each steer is getting a peck of corn daily. It is ground, cob and all and then cooked. In addition to the corn, each steer gets about nine pounds of clover hay a day and straw is near them all the time. A man with long experience, who has been watching these cattle, says they are putting on three to four pounds a day. They are sure making good money and the reason is that corn prepared in my cooker has far more nutriment value than fed in the ordinary way. Come and see these cattle.

SUPPORTING FORCE SENT TO VERA CRUZ AS A PRECAUTION?

(Continued From Page One.)

transports which have been chartered are not available at once but that within the next two weeks at least nine transports will have been secured by the war department.

"Not an Aggressive Movement." Regarding the chartering of the steamers, Secretary Garrison said: "There is no contemplated aggressive movement at this time."

This is in line with the attitude of other high officials of the war department, who contend that the sending of reinforcements to Vera Cruz is not an aggressive act, but merely a protection for the forces already at Vera Cruz and does not violate the arrangement for a suspension of hostilities entered into between the United States and the mediators.

The fact that the high officers of the army had recommended the sending of at least 50,000 to 60,000 men to Vera Cruz in preparation for all eventualities became known during the day generally in executive quarters. A number of officials admitted that the administration was now confronted with the problem of deciding whether it would limit its military activities to protecting the forces already at Vera Cruz from attack or whether a sufficient number of men would be placed in readiness at Vera Cruz for a flying expedition to Mexico City in case the Huerta regime collapsed and irresponsible hands threatened the lives of Americans and other foreigners in the Mexican capital.

REMAINS ARRIVE THIS MORNING

The remains of George Corcoran arrived in the city at 1:55 o'clock this morning via the Chicago & Alton from Independence, Kan., and were taken to the Reynolds undertaking establishment. They were accompanied by his widow. Ol Corcoran, only brother of the deceased arrived last night from Des Moines, Ia. Arrangements for the funeral have not been made.

COUTESSES EXTENDED JAPS

Honolulu, May 8.—Courtesses of the United States army and navy were extended to Major General William J. Carter and Rear-Admiral B. T. Moore to the officers of the Japanese Cruisers Adzuma and Asama on arrival today of the warships from Yokosuka navy yard, Japan. The felicitation of the Americans was responded to by Rear-Admiral Kuroki, commanding the visiting vessels, which carry a complement of 1,600 officers and men. Doubt exists as to whether Vancouver, B. C., or the Mexican coast will be the destination of the cruisers when they sail May 15th. The Japanese officers are uncommunicative on this point.

EXECUTIVE BOARD ADVISES AGAINST GENERAL STRIKE

Report Also Condemns John D. Rockefeller, Jr.—An Appeal For Aid is Authorized.

Indianapolis, May 8.—The International executive board of the United Mine Workers of America adjourned late today subject to the call of President John P. White, after five days discussion of the conditions of miners within the organization and especially those in Colorado, Ohio, and West Virginia. Earlier in the day the board issued a statement advising against a general strike "at this particular time" but affirming in strong terms its support for the striking miners of Colorado. The report also condemned John D. Rockefeller, Jr., who, it was asserted, could have averted the loss of life and damage to property, in Colorado, by saying "one word, favoring a settlement through a meeting between the representatives of the coal companies and the representatives of the striking employees."

The report stated that hundreds of requests had been received urging the calling of a general strike in the coal mines of the country, but that it was believed to be unwise to do so now, but adding that if conditions in Colorado became worse the policy of the board would be changed. An appeal for aid was authorized by the board when it was informed that a large number of individuals and organizations had asked permission of the international officers to contribute to the fund for the upkeep of the strikers in Colorado.

AMERICAN REFUGEES WILL BE SENT TO NEW ORLEANS

WASHINGTON, May 8.—Rear-Admiral Badger estimated in a despatch to the navy department tonight that it probably will be several weeks before all American refugees are out of Mexico. He reported that the Steamer Espiranza left Puerto Mexico early today with 634 refugees aboard and was expected to arrive off Vera Cruz tonight. The Mexico, which arrived at Vera Cruz last night will take 170 of the refugees on the Espiranza to New Orleans. The City of Tampico sailed for Progreso today to collect refugees from the Yucatan district. When the Morro Castle returns from Tampico Admiral Badger said all refugees then at Vera Cruz will be transferred to her and she will be sent to New Orleans at once.

MILITANT SUFFRAGETTE GIVEN ONE YEAR'S IMPRISONMENT

LEEDS, England, May 8.—Lillian Lenton, a militant suffragette, was sentenced today at the Assizes here to serve a year's imprisonment for setting fire to Westfield House, Doncaster, in June last year. She had confessed the crime.

There was a stormy scene in court when sentence was pronounced—Miss Lenton's friends in the gallery pelted the judge with suffrage magazines, pamphlets at the same time shouting at the tops of their voices.

The police in court were at first greatly outnumbered and fared badly at the hands of the demonstrators. When reinforcements arrived they obtained the upper hand. After a sharp struggle the ring-leaders were ejected and the others fled.

FILES HIS ACCOUNTING.

New York, May 8.—Louis R. Owsley, appointed executor in 1910, under bond of \$500,000 if the estate of New York City Charles T. Yerkes, the Chicago traction magnate, has filed his accounting and asked for judicial settlement of the estate. The accounting made public today shows that of an original value of \$1,227,223, the principal asset being 3,670 shares of Chicago Traction stock, a balance of \$120,195 is reported, after the full satisfaction of ninety-six creditors, having claims totalling nearly \$1,000,000 and the payment of twenty-six legacies. The executor asked that his fee be determined by the Cook county probate court in Illinois.

CAN GET BOATS THROUGH.

Panama, May 8.—Col. George W. Goethals, governor of the Panama canal zone, said today that he would put torpedo boats through the canal at any time Secretary of the Navy Daniels desired him to do so. He said also that he would ask Secretary of War Garrison's approval to send ships through the canal on or about May 15th as he anticipates having a thirty foot channel cut through the slide at Cuharacha by then.

The large line which is to aid the railway in transporting freight across the isthmus will be in operation next Monday.

SUFFRAGETTES READY.

Washington, May 8.—With delegations from nearly every state in the union already here and with more arriving hourly, everything was in readiness tonight for the women's suffrage procession and demonstration tomorrow when between 5,000 and 10,000 suffragists will march from the white house to the capitol and demand the passage of the Bristow-Mondell resolution proposing a constitutional amendment giving women the right to vote. It was raining here tonight but the suffrage leaders declared they would march rain or shine.

"KITTY" LEAGUE OPENS SEASON
 Paducah, Ky., May 8.—This was the opening day for the "Kitty" baseball league, the clubs lining up for the initial contests in the twelfth annual race for the pennant. Since the close of last season the league circuit has been reduced to six clubs by the dropping out of Vincennes, Ind., and Harrisburg, Ill. In the opening games Hopkinsville appeared at Owensboro, Clarksville at Henderson and the Cairo team against the champion "Indians" in this city. The season will end Labor day.

The Handicap.

By WALT MASON.

Oh, youthful guys, if you would rise, your breath you'll never tarnish with pint or quart of any sort of good old coffin varnish. When you are dry, you'll shun old rye, and round the hyacinth frollic; there's naught in town will keep you down like dragons alcoholic. When trade is stale and merchants quail, the grocers and the drapers, the clerks who drink the old red ink first get their walking papers. When railways fire the men they hire, and tell them they must travel, the ones who slug the old brown jug are first to hit the gravel. When merchants say "To raise the pay of clerks we have a notion," the ones who use the dark red booze are last to get promotion. When there's demand throughout the land for husky men and handy, employers say, "Oh, fade away," to those who smell of brandy. Where'er he goes a million woes surround the chronic boozier; the men who pay for work all say: "We want no pickel snoozer." The lovely maid says, "I'm afraid," when drinkers come to court her; so, youthful jays improve your ways and dodge the ale and porter.

SPEAKING ABOUT THE ICE BUSINESS.

(By William N. Hairgrove.)
 The question of compelling the public to buy a quantity of ice tickets, a book, or refusing to let them have ice by the combined ice dealers is a question that can be looked at from several angles. Usually a question of where we are located develops the point of view.

I understand that the reason the dealers claim they wish to compel the people to buy books is for the dealers in ice to be thereby enabled to protect themselves from the possible dishonesty of their employees. Is that correct? If so, it is just to the public, the customers of the ice dealers, to be thus penalized because the ice dealers employ men alleged to be dishonest. If the men employed are dishonest they are not employed by the public but by the dealers and the dealers should suffer the penalty for employing that kind of people. If the people who are employed by the ice dealers are dishonest then who is going to protect the public from the dishonesty of these dishonest employees? Who will protect us from dishonest weights and from having a strong hand laid on the ice book? The public, which has no part in the selection of the employee who is dishonest ought to be protected from his dishonesty instead of the man who employs such dishonest help.

Mind you, I am not alleging that the ice employees are dishonest, but I am simply stating that the employees have given such alleged dishonesty as a reason for selling only with books.

Why is any employee dishonest? He surely is not naturally so. If he is naturally dishonest he is of an unusual type. The usual and natural thing among the people of any community is to be honest, and the reason that a person is dishonest can usually be found on an examination of the entire facts of the case. My observation of dishonest employees, and I have had occasion to talk with a number of them, has been that many of them allege as an excuse for bad conduct that the employer was dishonest. I most confidently believe that as a general rule the dishonesty of employees is largely brought about by the example set by those for whom they work. Last year at my own home the girl who paid the ice man for the ice complained to him of the size of the piece she received for the money paid, saying it was short. The man replied to her that the load of ice was weighed to him, that he had to make it weigh out and that the weather was hot and so he was compelled to give a small piece to make his load check out.

When a person commits a crime of late years and under the system of imprisonment for crime in the state of Illinois, not only the fact that he committed a crime but the moving cause of his committing the crime is taken into consideration. The matter of whether he stole something for the purpose of avoiding starvation or whether he stole it to indulge in some beastiality is a matter considered by the board that fixes the term of his punishment.

Let us consider again why the employee on an ice wagon might be influenced to be dishonest outside of the example set before him. I am advised that men who have families to support are doing this hard, disagreeable, unhealthy and menial work six days of the week, long hours, and part of the seventh day also, for the princely sum of twelve dollars a week. He has all of this vast sum to spend in riotous living on himself, his family and the landlord. Now at the present cost of living, if a fellow so situated did steal from the man who compelled him to work for that pittance, I believe and hope that whoever it is that keeps the record of acts, good and bad, will consider all of the circumstances of the occasion. At least if he is not stoned except by some one who is without fault, the man who employed will be barred from throwing any pebbles.

Of course the public is entitled to consideration and a "fair deal." If the public has to buy books and pay in advance the man is furnished capital to go into business on. I was early educated to know that there were "two poor paymasters; one paid in advance and the other never paid." I do not want to be in either class. We have been taught that money is the end of the law in payment for value received; that it is a legal tender for the payment of debts and the discharge of obligations, and the law does not require you to have any more than enough money to pay the debt. So it would seem to me if I only had a nickel or a dime and I wanted to buy ice with it, then I ought under the law to be able to get what I had money to pay for and no one ought to have the power to make me put up more money than I wanted to spend. If I have an ice book I am compelled to buy or trade with that one man, and if he does not deliver early I am compelled to wait without ice and a warming ice box for him to come, and I can not buy of some one who is there with ice without making another and additional investment. In fact a combination of the kind is oppressive; it is unreasonable and unfair. When dealers combine to pick their customers it is then time for the consumers to remember the power that they have and to get up and do something and do it promptly and effectively; it can be done. If the people are of the metal that tradition concedes to be true American they will speedily and effectively bring Mr. Scheme man back to where he belongs or relegate him to the rear, the place for out of date and not useful junk. A new enterprise is coming to Jacksonville; a new ice plant, and we hope it is coming to aid the public and not to oppress.

Your best interests will be consulted if you buy clothes of Knoles.

BALTIMORE PHYSICIAN B MITTS INTERESTING REPORT

Dr. Moss Tells of Attempts to Immunize Calves Against Tuberculosis by Feeding Them Milk of Vaccinated Cows.

Washington, May 8.—Dr. W. L. Moss of John Hopkins Hospital, Baltimore submitted an interesting report today to the Pathological Section of the National Association for the Study and Prevention of Tuberculosis upon his attempts to immunize calves against tuberculosis by feeding them milk of vaccinated cows.

Dr. Moss suggested that his experiment might show a way to protect young children against tuberculosis by a similar process of feeding.

The idea of the experiment was suggested by the success of previous attempts to immunize young animals against diphtheria by feeding them the milk of animals into which the anti-toxin for that disease had been injected.

Dr. Moss attempted to determine, in the first place, if anti-booids could be demonstrated in the milk or blood of cows vaccinated with tuberculosis germs or in the blood of calves fed upon the milk of such vaccinated cows. Then he endeavored to show if the calves thus fed had developed any degree of immunity to tuberculosis. In neither of two series of experiments was he able to demonstrate that invaccinated cows were more immune to tuberculosis than unvaccinated cows. The test did show, however, that the calves fed on milk of vaccinated cows grew faster, gained about twenty-five more per cent in weight and were more resistant to tuberculosis than the cows which were fed on ordinary milk.

Dr. Gilliland's Experiments.
 Dr. S. H. Gilliland, of Marietta, Pa., former State Veterinarian of Pennsylvania, told the Pathological Section of his ten years' experimentation toward conferring immunity against tuberculosis upon cows.

The experiments conducted at the Experimental Farm of the Pennsylvania State Live Stock Sanitary Board, employed more than four hundred cows, hogs, rabbits, and guinea pigs.

A vaccine prepared from human tubercle bacilli, was injected for the most part in the jugular vein of the various animals. The injections were of varying quantities and extended over intervals of varying lengths—from ten days to eight weeks. In some instances as high as ten vaccinations were given, while in others only one was administered. The vaccinated form. It was found, after attention by close association with cows afflicted with tuberculosis in an advanced form. It was found, after careful study, that the vaccinated cows were apparently not susceptible to infection from tuberculosis, when the vaccinations had been carried on under proper conditions. On the other hand, all the unvaccinated cows either succumbed to the disease or were killed. The length of immunity established by this method of vaccination has not been definitely determined, although it is believed that it greatly diminishes after two and a half years.

Dr. Gilliland concluded that while the outlook for the general utilization of vaccine to provide immunity against tuberculosis in cattle was hopeful, until further knowledge is obtained in regard to the destruction or outcome of the living tubercle bacilli injected in the animal with the vaccine, no practical method for immunization of cattle under ordinary conditions can be advocated.

MEETING OF THE TENT AN SOCIATION OF QUINCY DISTRICT.

The Rev. G. T. Shaw, the popular pastor of Bethel A. M. E. church entertained at his residence the Reverend Messrs. G. W. Jones, P. E., of the Quincy district, I. S. Stone, of East St. Louis, J. H. Fisher, of Madison, Ill., and Fleming Gray of Litchfield, Ill. These gentlemen met with Mr. Shaw at the call of the presiding elder looking forward to a completion of arrangements for carrying on a great tent meeting within the bounds of the Quincy district.

It is the intention of the presiding elder and the men associated with him to develop the project into a district affair. Thence, a conference affair, to be held annually. It is also the belief of the men interested, that great good will be derived from such meetings.

The prime object of these meetings will be to save souls and to develop the race spiritually, morally, and intellectually; securing the best talent of the race to assist in the work. Rev. G. T. Shaw was chosen as chairman of the association, I. S. Stone, as secretary and Rev. F. Gray, as the treasurer. Executive committee: G. W. Jones, G. T. Shaw, I. S. Stone, J. H. Fisher, J. W. Tiff and William Graham. Committee on arrangements: G. T. Shaw, J. H. Fisher, I. S. Stone, J. W. Tiff and William Graham.

Rev. G. T. Shaw and wife proved themselves to be charming entertainers. The session was pleasant and profitable. May success attend the efforts of Mr. Shaw in his field of labor.

AN OLD TIME PROGRAM.

A friend has left at the Journal office an old time program, that of the quarterly missionary meeting of the First Presbyterian Sunday school society of this city. Among the names and numbers are roll call by the secretary, C. C. Catlin; prayer by the superintendent, Frank Hine; letter from Miss Eva Dagama telling of the Brazilian boarding school and read by Miss Lillian Ireland, illustrations by C. M. Eames; minutes of last meeting by secretary, Miss Alice Wight; report of treasurer, Miss Emma Braun; home heathen, E. L. McDonald and C. A. Catlin; prayer, P. G. Farrell.

Some of the persons mentioned have gone to their final reward in the better land and some are in other fields of labor.

COURT NEWS

PROBATE COURT.

In the probate court Judge Brockhouse entered an order for the destruction of the ballots which were cast in the election held in November last, in accordance with the law. Perry White was appointed to represent the Democratic party and John E. Wright to represent the Republican party to superintend the burning and this work was done in the court house furnace room.

TRUST DEED FILED.

A trust deed was filed on record Friday whereby Mrs. Clara H. Smith and Luther E. Smith have transferred certain Jacksonville properties to E. E. Smith, E. E. Crabtree and H. J. Rodgers as trustees. The document sets forth that the trustees are to sell the property as soon as they can do so to advantage and from the proceeds are to pay off mortgages against the property and certain obligations of the P. G. Farrell & Company bank and the Jacksonville National bank. The residue after such payments have been made is to be turned over to Mrs. Clara H. Smith.

REAL ESTATE TRANSFERS.

BIG GAINS SHOWN BY ALTON EARNINGS.

The statement for the month of March just issued shows up very favorably for the new administration. The road earned \$1,097,542, which was \$87,367 less than the same month one year ago. While the showing for gross was fair, considering the suspension of so many coal mines, yet the net showing was much better. Due to a heavy decrease in operating expenses by President Biedt the net earnings showed the surprising gain of \$53,958 for the month, the first gain net reported for a year or more. Since the first of July the road has earned \$1,016,759, which was a decrease of \$677,458 over the same period in the fiscal year preceding. The net earnings were \$1,225,257, which was a decrease of \$457,774. It is believed that the coming year will show up much more favorable, due to the new administration.

OPENING IN KANSAS STATE LEAGUE.

Hutchinson, Kans., May 8.—The Kansas State League, which has the distinction of being the only four club league in organized baseball, opened its season today, with Salina playing at Emporia and Great Bend in this city. Hutchinson and Emporia are newcomers in the league, holding the franchises held last year by Clay Center and Lyons. The league will play a schedule of 90 games, closing August 2.

Banish the "Blues!"

If you have that depressed feeling it's more than likely that your blood is out of order—impooverished or poisoned. There is only one thing that will alter your present condition—that's to restore your stomach to normal health and strength. For a weak or diseased stomach cannot make good blood. If your digestion is bad your food will not make the good blood which nourishes body, brain, heart and nerve.

Dr. Pierce's Golden Medical Discovery

helps the stomach to do its work naturally and properly. Stimulates the liver. The system is freed from poison. The blood is purified. Every organ is rejuvenated. Instead of the "Blues," you feel fit and strong, equal to any task or up to any pleasure.

This great remedy has proved its worth year after year for over forty years. Let it prove its worth to you. Sold by medicine dealers in tablet or liquid form or send 50c for trial box by mail.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, clothbound. Address Dr. V. M. Pierce, Buffalo, N. Y.

SOME OFF-SIDE CHUTES.

Skipper Roberts, a Chicago
product, who was signed early in the
spring and recently turned over to
Hanlon's Terrapins, has been uncer-
emoniously canned by "Rebel"
Bakes, who is acting manager of the
Baltimoreans during the absence of
Otto Knebe. Roberts, when he con-
nected with Baltimore, attempted to
hold up the management for an in-
crease in his salary, and not suc-
ceeding, commenced to cut up "di-
dos" and to fracture nearly all of the
club's rules. At Kansas City, it is
said, he took on a load of squirrel
whisky two shipwrecked sailors
would have been unable to tote and
engaged in a barroom fight, in
which he finished a poor second.
When Oakes learned this he swiftly
sealed Roberts in a can and shipped
him back to Tinker. Joe's catchers
are in a bad way from injuries, so
that Roberts may be given a chance
to reform under the watchful eye of
Joseph Faversham.

The Yachting World of London
appears not to be favorably impres-
sioned with Sir Thomas Lipton's Sham-
rock IV. cup defender. It describes
the yacht as a freak of "a futurist
design."

Dee Walsh, utility infielder with
the Browns the past two seasons, has
been released to Rochester in the
International league. Dee was
removed to make room for another
collegian—a team composed of that
kind of material entirely, being the
ultimate goal of Branch Rickey, the
successor of George Stall as manager.

Racine, Wis., as a harbor for fluke
boxers will in all likelihood be closed
by the Wisconsin Boxing com-
mission, because of the Joe Mandot-
Johnny Griffiths fiasco. According to
the regulations of the commission,
when a promoter fails to stage an
advertised bout (except in case of
accident or death) he loses his li-
cense, and this is what is expected
to happen to John Wagner when
the commission meets. Outside cap-
ital will take no chances in the auto-
mobile city, and as a result the game
will be dead there for some time to
come.

The New York state fair this fall
will card one of the largest trotting
and pacing events ever attempted on
the Grand Circuit. One hundred and
seventy-five entries have been re-
ceived for the ten classes which
make up the early closing events of
this popular organization controlling
harness racing.

All fears that the British poloists
would not invade this country this
year were set aside yesterday by
Lord Willborne, who cabled from
London that the British team would
sail for America on the steamer
Carmania May 23. The personnel of
the challengers will not be known
until after the trial practice in Lon-
don today. On May 16 a bunch of
thirty ponies will precede the play-
ers, in order to get the benefit of
galloping exercise.

Ted Sullivan has in press a book
dedicated "to both the players of the
Chicago White Sox and the New
York Giants," the teams making the
recent world's tour. Those who
have had the pleasure of perusing
the advance copy of the history of
the globe gadders, pronounce it a
corker. It would have to be a corker
if Ted Sullivan was expected to
"connect up" with it.

For several days past this column
has been asked why Mathewson is
called "Big Six" and if the team was
original in the case of Christy. The
nickname was not originated to fit
the Giant's hurler. Anybody and
everybody in New York who has ac-
complished anything out of the ordi-
nary is dubbed "Big Six." The ap-
ellation for a number of years was
supposed to apply only to Typogra-
phical Union No. 6 of New York
city, whose membership comprises
an army of upwards of 8,000. But
this is a mistake. That union when
the National body was reconstructed
more than fifty years ago, in draw-
ing lots for a number, was sixth in
the pull, and immediately became
known as "Big Six" and as such it
is called to this day by printers in
general. In New York, long before
the rebellion, there was a volunteer
hose company composed of six big
huskies who had the "goat" of all
the other volunteer corps. At a fire
and at the picnics and dances of
the volunteer department the mem-
bers of this particular squad run
things strictly to their own liking,
so that in recounting their actions,
the other teams first, and then the
newspapers, christened them "Big
Six." Ex-Tammany boss, Dick
Croker, received his early political
training while connected with this
aggregation of "Ironside"—the
original "Big Six."

A sample of the brand of ball the
Federalers are dishing up with their
hands of former stars and army of
recruits can be had by glancing at
the box scores of Thursday's games.
There were only two full games
played on that day, and the four
clubs participating made a total of
fourteen errors, fifty hits and forty
runs. Some mud-lot baseball.

Baseball scribes attribute Cleve-
land's slump to stupid baserunning.
If this be true, Grauey, one of the
best runners in the league, Johnson,
Jackson, Olson, Liebold and a few
others should visit Bonestetter Reese
and have him replace the wood with
good live cuttle.

Jacksonville on Monday evening
next will have an opportunity to
witness some shifty stunts in the art
of graupling, when the local Order
of Moose will stage at the Grand
Opera house a world's championship
in the Lightweight division, to be
preceded by two preliminary wrest-
ling matches. One of the contest-

ants for the championship, the big
bills state, is the champion of the
world, and his opponent is champion
of Illinois, a statement which is on
a par with the yarn told about a
traveling man and a Mexican. The
former met the latter on a train in
Arizona and in discussing the Mex-
ican imbroglio, the greaser was
asked if he believed Mexico could
whip the United States. "Sure,"
said the Mexican; "Mexico can whip
the United States Gringos, but Texas
will knock h—1 out of Mexico." The
printers in St. Louis, where the bills
were printed, never did know that
Illinois occupied a prominent place
on the map of the world, hence the
oversight. But the slight error will
not prevent a bumper house next
Monday evening.

PROFESSIONAL TRADERS DISREGARD
OLD CUSTOM OF WALL STREET

Speculators Eager For Action, Sell
Stocks and Succeed in Pulling
Away List From Dead Level.

New York, May 8.—Professional traders disregarded today the old custom of Wall street that it is never safe to sell a dull market. The last few days were so unusually dull, that speculators were eager for action and as conditions favored the short side they sold stocks. They succeeded in pulling away the list from its dead level and at the end of the day there were numerous declines of 1 to 3 points. While there was no change of first importance in the speculative situation sentiment was affected unfavorably by various considerations. Chesapeake & Ohio broke under 49 to the lowest price since 1908. Another depressing feature was the Mexican news, conveying intimations of a more serious situation. The combined result of these influences was an increase in activity with periods of the liveliest selling since the severe decline of a fortnight ago. The copper producers monthly figures, although reporting an increase in supplies made as a good showing as had been expected. Copper metal prices sagged both here and abroad. An increase in the number of idle freight cars was disclosed in the fortnightly statement. The week's currency movements indicate an increase in holdings of the New York banks of about \$5,000,000. Time money rates again yielded. Demand sterling reached another high point and further engagements of gold were predicted.

PREDICTIONS OF AN EARLY HARVEST
MAKES WHEAT MARKET EASE OFF

Dispatches From Oklahoma Say That
Fields There Are All Headed—Ef-
fect of News on Prices Is Immed-
iately Evident.

Chicago, May 8.—Predictions of the earliest harvest ever known in the United States made the wheat market ease off today after an unexpected show of strength. Closing prices were steady at a shade ¼¢ to ½¢ net decline. All the other leading staples too, had something of a setback—corn ½¢ to ¾¢; oats ½¢ to ¾¢ and provisions ½¢ to 1½¢. It was from Oklahoma the news came that upset the hopes of bullish speculators in wheat. Dispatches were received saying the Oklahoma fields were all headed and that signs pointed to cutting being general this season ahead of any previous record. The effect on prices here was immediately evident and was continuous for the rest of the day, although the market was far from being demoralized. The cables were counteracted somewhat by improved reports about the progress of seeding in northern Minnesota and North Dakota. It was not however, until Oklahoma was heard from that the market turned decisively down grade. Increased country offerings in the southwest led to selling pressure on corn. Wet weather delay to planting though had at first made the market incline to the bull side. Good conditions for the growing crop tended to curtail the value of oats. Beside shipping demand was not so large as on the preceding day. There was little call for cash product in the provision market. Shorts were the only buyers.

SOME RECOLLECTIONS OF THE GREAT REBELLION

(By Capt J. M. Swales.)

(Continued from Tuesday, May 5.) Two oldest went south and joined the fortunes (or misfortunes) of the southern confederacy and were captured by General Grierson in his raid through Mississippi and Louisiana, while Frank, the younger brother, linked his fortunes with the Union cause as a soldier in the 101st regiment and served to the end of the war. There was one sister, Mary, and as hot a little rebel as ever were crinoline. Then there was the Hughes family who lived on West Morgan, near Church. Bill Hughes, the only son, joined the confederate army and rose to the rank of colonel and last heard from was a resident of Dallas, Texas. Another family by the name of Miller, of which there were four brothers. The father was a Union man to the core, but his oldest son, Cicero, "Kit," as we used to call him, gave four of the best years of his life fighting under the banner of the lost cause. In my family there were four brothers, three of whom served in the Union army, while they had several kindred on my mother's side who fought in Tennessee regiments under the stars and cross. And this community was only a type of many other sections throughout the north.

GRIERSON'S EXPEDITION.

The First Important Raid Through the Southern Confederacy—"Rough Riders" of Illinois-Saber Their Way to Fame—Local Men Take Important Part—Death of Col. M. H. Starr.

On the 8th day of August, 1860, there assembled in Springfield the greatest multitude of men that ever got together in the state of Illinois up to that time. Wide Awakes were there by the tens of thousands from all over central Illinois. They went by trains and all sorts of road vehicles—buggies, horseback and wagons drawn by eight, ten and twenty horses, with an immense flag pole in the center of the wagon made fast by ropes and sturdy hands to keep it erect in parade. There were wagons with platforms on which were seated girls dressed in red, white and blue, and just enough of the Illinois beauties to represent each state in the union. When the parade formed it was fully three miles long. The Wide Awakes wore a blue oil cloth cape and a black military cap, each one carrying a torch filled with coal oil. Several hundred from here formed a part of the greatest civic pageant ever witnessed by the denizens of the capital city of the prairie state. From Meredosia came another company of Wide Awakes under command of a young man named Ben Grierson—Captain Ben Grierson they dubbed him—and he was every inch a captain, as subsequent events will show. This immense throng had gathered in Springfield to pay honor to a very ordinary, homely individual by the name of Abraham Lincoln, an expert with the axe and a mail and wedge and candidate for president of the United States on the Republican ticket. He was a fairly good lawyer and had been in the legislature for one term and a member of congress during the Mexican war. He was also a soldier of more or less distinction, having served as captain for thirty days in the Black Hawk war. When his thirty days expired as a commissioned officer he immediately reenlisted and served as private in the ranks a few more days. He often in after years said that his election as captain in the Black Hawk war was the proudest day of his life. What he didn't know about tactics and the manual of arms would have made a very large volume. He little dreamed then that some day he would be commander-in-chief of 1,778,000 men who, from first to last, constitute the armies of the union from '61 to '65. And Ben Grierson was one of them. When the 6th Illinois cavalry was organized and equipped for service Thomas H. Cavanaugh was elected colonel and after about two months' service quit the game. Early in January, 1862, Benjamin H. Grierson of Jacksonville was elected to succeed Cavanaugh. Ben made good from the start and in June, 1862, was promoted to the rank of brigadier general and he in turn was succeeded by Col. Mathew H. Starr, for whom our local Grand Army post was named and by the way, I was the one who nominated him when the post was organized in January, 1883. Colonel Starr was the son of a Methodist minister, who was a tank copperhead and a violently opposed to the war and those who took part in it, and more especially his son. He was a first cousin of the Misses Sarah and Johanna Spracey, who reside on South Clay avenue.

In August, 1864, the rebel General N. B. Forrest made a dash into Memphis, Tenn., but went out farther than he went in, but while in the city there was considerable doing. Among other federal troops there was a battalion of the 6th Illinois cavalry as part of the garrison, under command of Colonel Starr. For a time there was some fierce fighting before Forrest was driven out. When the scrap ended there were several hundred dead and wounded of the blue and grey. Among the blue was Colonel Starr, who was mortally stricken. As soon as possible he was brought to his home in this city, where he died October 1, 1864, and was buried in the 7th cemetery, mourned by a large circle of friends. He was as brave a soldier as ever marched beneath the flag, and when his heroic soul passed off and when his body was laid in the eternal camping ground Illinois lost one of its bravest defenders. He had a most remarkable record, having been promoted from 2nd lieutenant in Co. L to colonel of the regiment inside of two years. Co. C of the 6th cavalry was re-

cruited in Morgan county, mainly in the vicinity of Prentiss, and its first captain was David P. Foster, who resigned after about one year's service. Among the survivors of this company I now recall living in this city, is Paul Conlon, as brave a soldier as ever followed a guidon or flashed a saber in the ranks of the Union volunteers. April 17, 1863, General Grierson conceived the idea of making a raid through Tennessee, Mississippi and Louisiana. He not only conceived but acted and succeeded beyond his most sanguine expectations. He formed a brigade consisting of the 6th and 7th Illinois cavalry and the 2d Iowa rough riders, all seasoned veterans, well mounted and ready and anxious to go wherever the guidons pointed the way. Starting from La Grange, Tenn., they were soon on their way to demonstrate that boasted confederacy was but a shell. The 2d Iowa did not go through, but for some reason returned, and the two Illinois regiments were to perform the achievement that was to bring well-earned fame to Grierson and his cavaliers. No movement up to that time had so thoroughly demonstrated the dash and fearless heroism of the Union cavalry as had this raid. The country traveled by this Spartan band swarmed with the enemy and at all hours of the days and nights of the long and strenuous march before them they were liable to be surrounded and annihilated or taken prisoners. Having burned their bridges behind them there was noth-

ing else to do but cut and slash their way through the swamps and bayous and ford and swim swollen rivers and pass seemingly impassable barriers that would have appalled men less brave than these sturdy sons of grand old Illinois. Little time for rest and sleep either—day or night. Bugles never sounded retreat. Conditions were such that retreat was impossible, for the line had been obliterated by the stern necessity of the occasion. On, and still forward they pressed, burning and destroying, like a besom of destruction with in hoc signo vinces inscribed on their waving pennons and battle flags. There must be no such word as fail, and there wasn't. The word fail found no place in the lexicon of that band of rough riders. Fear was no part of the program as mapped out by the fearless and peerless leader of the boys from Illinois. Through trackless forests of Mississippi they blazed the way on into Louisiana and to Baton Rouge, which ended a march of 800 miles in about 17 days. This successful raid fixed the fame of General Grierson and placed the double stars of a major general on his shoulders, and won radeless glory for the boys who cut and slashed their way, adding terror and alarm to all rebels through which they passed. At Baton Rouge General Grierson met George Dewey, who was a lieutenant in the old navy under Admiral Farragut. The next meeting between these distinguished men was here in Jacksonville during the state encampment of the G. A. R. about 14 years ago.

Others who served in the 6th cavalry from Jacksonville were Major James D. Stacey, Thomas P. Stacey, John M. Snyder, W. L. Edwards, C. H. Bazzard, Joan Landers, George Brown, George Bammel, C. L. and E. M. Carpenter, Paul Conlon, James

Currin, Patrick Flynn, C. A. Haggard, Patrick Kinney, Pleasant Land, William Lustick, Silas Milsha, Stephen Murphy, Patrick and James Nagle, John and Thomas Sinclair, Paul Sweeney, Patrick Waters, the remainder of Co. C being from towns and villages adjacent to Jacksonville. The John C. Grierson mentioned above was quartermaster and a brother of General Grierson. John M. Snyder was also quartermaster. He is a brother of the late Wesley Snyder and is now a resident of Canton, Ill. John Barber lives just north of the city and has been "totally blind since the war as a result of his services. The great majority of those mentioned long ago joined their comrades on the other shore and the few remaining are living on borrowed time.

THREE CREWS TO ROW AT PRINCETON

Princeton, N. J., May 8.—With the exception of witnessing one of the most interesting aquatic events of the year, many enthusiasts of the sport have come to Princeton to attend the triangular regatta in which the varsity oarsmen of Columbia, Pennsylvania and Princeton will compete. The contest will take place tomorrow on Carnegie lake, the distance being one mile and seven-eighths. The winner of the race will be awarded the Childs cup.

Whooping Cough.

"About a year ago my three boys had whooping cough and I found Chamberlain's Cough Remedy the only one that would relieve their coughing and whooping spells. I continued this treatment and was surprised to find that it cured the disease in a very short time," writes Mrs. Archie Dalrymple, Crooksville, Ohio. For sale by all dealers.

TRADE EXHIBITS MODERATE EXPANSION AS RESULT OF CROP PROSPECTS

Brilliant Outlook For Winter Wheat Crop Inspires Confidence in the Future.

New York, May 8.—Bradstreet's tomorrow will say: "Because of excellent crop prospects, probably the best that ever prevailed at this season, sentiment tends to veer toward the line of optimism and as a result trade, especially in the west, exhibits moderate expansion. "Industrial lines as yet do not feel this cheerful feeling however. The disposition is to buy frequently but in small lots, a tendency that seems to have grown since 1907. "Country trade is seasonably slow. At the same time industrial operations in the mining lines are slow and therefore there is considerable idleness."

New York, May 8.—Dun's review will say tomorrow: "There is an improved sentiment in commercial and industrial channels even though actual progress is slow. The brilliant outlook for the winter wheat crop inspires confidence in the future and the splendid agricultural prospects generally constitute the best feature of the situation."

"Statistics of trade movements are conflicting, gross earnings of railroads reporting for the month of April were 1.9 per cent. less than last year. "Failures this week are 324 against 274 last year; in Canada 43 against 29."

BAD BREATH

Dr. Edwards' Olive Tablets Get at The Cause and Remove It. Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system.

They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or disagreeable effects of any kind.

Dr. P. M. Edwards discovered a formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color.

Take one or two every night for a week and note the effect. 10c and 25c per box. The Olive Tablet Company, Columbus, O.

Sick Headache.

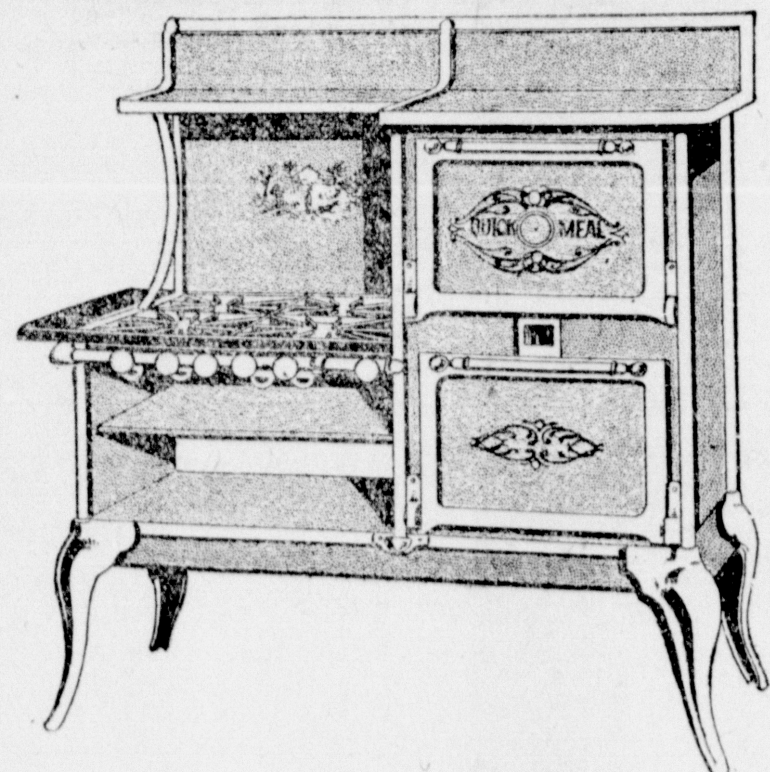

Mrs. A. L. Luckie, East Rochester, N. Y., was a victim of sick headache and dizziness, caused by a badly weakened and debilitated condition of her stomach, when she began taking Chamberlain's Tablets. She says, "I found them pleasant to take, also mild and effective. In a few weeks' time I was restored to my former good health." For sale by all dealers.

Today is the Last Day!

Of Our Spring Opening and Showing of Our New Line of Gas Stoves and Washing Machines.

Be Certain to Call Today After 2 P.M.

We are going to introduce in Jacksonville a new line of hot weather goods—stoves and washing machines, and have made arrangements with the factories to send representatives of experience and ability to be with us during the demonstration and introduction. We extend a cordial invitation to the public to visit our salesroom on this last exhibit day. We are confident that the things we will show will be found most interesting and practical. Mrs. Elizabeth Minish, head instructor for the Laclede Gas Company of St. Louis, will demonstrate the efficiency of this latest type of range.

A Very Special Offer

Remember, any time today we will take back your old low oven stove and allow you \$5 on the purchase of a Cabinet Range. This is positively the only time that this offer will be made this year.

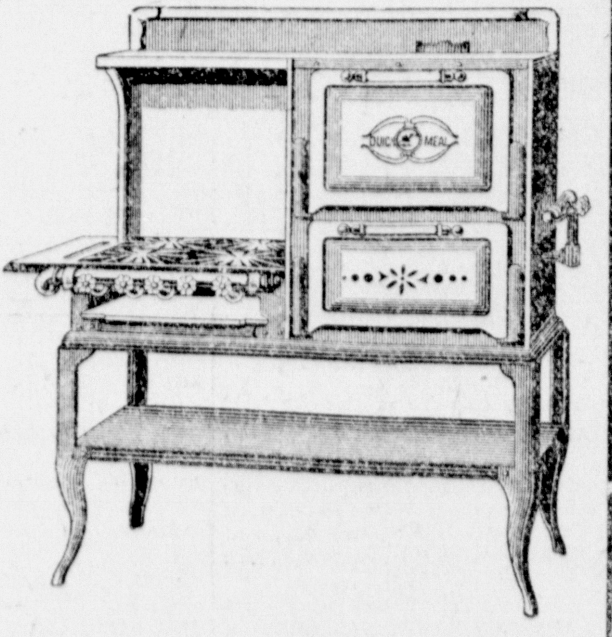

Today is Your Last Opportunity

HENRY CASE MAY NOT BE TRIED THIS TERM

POSSIBILITY THAT STATE MAY ASK FOR CONTINUANCE.

Attorneys Are All Silent As to Possible Trial Plans.—Matter of Getting Jury Would Present Difficulties as Everybody Read About Tragedy.—Prisoner in Good Health and is Visited Daily By Relatives.

The Morgan county circuit court is to convene Monday and the docket in size is about the average by comparison with the records of other years. During recent days there has been a good deal of interest as to whether or not the case of John Henry who is charged with the murder as a result of the tragedy at Woodson several months ago will come to trial at this term.

At the time of the tragedy the people of the county were stirred as they had not been by any happening for years but a few weeks after Henry surrendered to the sheriff and became a prisoner at the county jail, public interest in the case was greatly allayed and with passing time the tragedy and the coming trial have been mentioned only infrequently. The near opening however of the May term of court has again brought the case into the public mind.

Prejudicial Feeling Absent.

The understanding has been that the defendant has his case in the hands of Wm. N. Haigrove and W. T. Wilson and that States Attorney Tilton is to be assisted by T. F. Smith, J. Marshall Miller and John M. Butler. It is usually true in a case of this kind that the defendant is unwilling to come to trial at the term of court next succeeding the commission of the alleged crime. It usually happens too that a continuance is granted often upon the ground that public sentiment is prejudicial to the interests of the accused. In the Henry case however there has from the very first been a marked absence of prejudicial feeling and in its stead a very unusual amount of fairness has been manifest in the public mind. The disposition of the people at large has seemed to be very much in accord with the spirit of the law which assumes that every man is innocent until he has been proven guilty.

State May Ask Continuance.

It may therefore develop at the coming term that attorneys for Henry will not ask for a continuance. Some weeks ago the prisoner is known to have expressed a preference for a speedy trial stating at that time that he was ready to go into court and wished to have a decision rendered as soon as possible. It may be true however that the state will ask for a continuance for States Attorney Tilton has been sick practically all of the time from the tragedy until the present. He is now improving steadily but there is some question as to whether he will be able to enter upon the severe physical strain which a trial of such importance certainly involves. The case is one of the gravest which has come for the action of the States Attorney in many years and in view of all these facts there is a possibility that the state will ask for a continuance.

Attorneys Are Silent.

However neither the attorneys for the state nor the defense have made any statement as to their wish or intentions and at present just what will happen is wholly a matter of conjecture. It is said that the prisoner's physical condition has not changed greatly during the months he has spent at the jail although confinement has told upon him to some extent as would naturally be true with a man who had for years led an active out-door life. Not a great many visitors have been received although relatives have been at the jail a part of every day and there have been occasional visits from neighbors and friends.

The prisoner has had each day eatables to supplement the regular bill of fare at the jail, and Sheriff Rogers has shown him the consideration of allowing him to exercise in the jail yard almost daily during the recent weeks. During such time Henry is accompanied by Fletcher who is occupying the same cell with him and during the time they are in the jail yard they are well guarded.

Might Be Hard to Get Jury.

If the case does come to trial at this term it will no doubt be true that there will be some difficulty in getting a jury for undoubtedly practically everybody in Morgan county read the details of the tragedy as published in the county papers at the time and it is reasonable to suppose that many of the readers formed their opinions as to the guilt or innocence of the defendant. Had the alleged crime been committed in Jacksonville and had all the persons connected therewith been residents here there would have been less likelihood of all residents of the farming communities familiarizing themselves with all details.

The very fact however of the prominence of the families involved and their wide acquaintance not only in the rural districts in which they live, but all over the county, makes it certain that few people can be found who are unfamiliar with the story of the tragedy.

As had been stated before with reference to this case the absence of any apparent bias or unfriendly feeling on the part of the people generally is a great credit to the fair mindedness and good temper of this community.

PRESENT "THE HOLY CITY."

Winchester Choral Society Pleases Large Audience With Its Excellent Music.

The Methodist church at Winchester was crowded Thursday night when the Winchester Choral Society presented "The Holy City" by Alfred R. Gaul. The soloists included Mrs. Hartmann and Miss Mary Violet of the Woman's College and Mr. Sam. G. Smith of Peoria and the oratorio was given a splendid rendition. Mrs. J. W. Eckman presided at the organ.

While the chorus was singing "They That Sow in Tears Shall Reap in Joy," the electric lights went out, but the singers completed the difficult piece without any accompaniment, which gave evidence of the thorough preparation they had undergone for the entire performance. L. Foster Hite of this city was the director.

The officers of the society are:

President—W. D. Gibbs.

Vice-president—Prof. J. B. Hendricks.

Secretary—Miss Shirley Henderson.

Treasurer—F. G. Smith.

Librarian—Miss Isabel Henderson.

FORUM LITERARY SOCIETY IN LAST MEETING OF YEAR

High School Organization Makes Farewell to Large Audience Friday—Odd Feature in Primary Drill.

The Forum Literary society brought to a close the work of the year Friday before a large audience in the auditorium of the high school. The farewell speech was made at the close of the program by Kenneth Berryman, the president, who expressed in a few well chosen sentences, his regret at being compelled to sever relations with the society and wished for the Forum continued good work and a prosperous year next term.

The soprano solo by Miss Dorothy Adam, the first number on the program was rendered with merit, as was the piano solo by Miss Edith Hillerby. William Floret's was next with a number of magical tricks which delighted the audience beyond measure. Then came the primary drill, a novel feature which won especial applause and which showed distinct merit on the part of the performers. Dressed in children's costume and speaking selections adapted to children, the high school pupils appeared in this number and more than pleased the large number of friends present.

At the close of the program, the officers of the society were invited to the home of Miss June Kuechler, of the high school faculty, where a delightful social hour was spent.

MORTUARY

Smith.
Margaret Ellen Smith, the one month old daughter of Mr. and Mrs. Henry J. Smith of 130 Diamond Court, died at 6 o'clock Friday night. Brief funeral services will be held at 2 o'clock this afternoon from the family residence and interment will be made in Diamond Grove cemetery.

FUNERALS

Jeffers.
A. L. Jeffers, a former resident of Jacksonville, died Friday in St. John's hospital in Springfield, according to word received yesterday from his cousin, Mrs. J. W. Rawlings.

Mr. Rawlings was born in Xenia, Ill., 45 years ago. He had made his home in Jacksonville till 16 years ago when he moved to St. Louis where he was in the passenger department of the C. & P. & St. L. railroad. Three years ago he moved to Springfield where he entered the employment of the Illinois Traction System as traffic passenger agent, a position he held at the time of his death.

He has been in ill health for some and last spring had returned from Eureka Springs, much improved physically.

He is survived by his wife, who was formerly Miss Jessie Beck of Litchfield, two brothers, J. A. Jeffers and H. C. Jeffers and one sister, Mrs. J. D. Morris, all of Springfield.

The funeral will be held Sunday afternoon at Springfield and burial will be made Sunday afternoon at Litchfield.

CRADINE FARLEY IN ROME.
Rome, May 8.—Cardinal Farley arrived in Rome today on a visit to Pope Pius. His holiness expressed a desire to see him soon. When asked concerning the situation in Mexico Cardinal Farley expressed a hope that the mediation program undertaken by the South American powers would prove effective in bringing about a settlement of the controversy between Mexico and the United States. He said he was convinced that President Wilson was a sincere advocate of peace and did not desire to add to the territory of the United States by conquest.

TOO MUCH JUDGE-MADE LAW.
Washington, May 8.—"The solemn truth is we have too many courts and too much judge-made law," declared Representative Hinebaugh, Progressive of Illinois in a speech in the house today advocating the recall of judges and their decisions when in conflict with public needs and demands. He contended that nowhere in the federal constitution is the supreme court authorized to decide an act of congress unconstitutional and that for years the supreme court claimed no such power and made no attempt to exercise it.

STATE HISTORICAL SOCIETY BRINGS MEETING TO CLOSE

Plan Peace Celebration Next Year Commemorating Close of Civil War—Pres. Rammelkamp, Andrew Russell and Mr. Ensley Moore Attend.

The meeting of the Illinois State Historical Society at Springfield was closed Friday evening by an address by Justice N. O. Carter of the supreme court of Illinois, in the senate chamber of the state house. Plans were inaugurated for a state wide peace celebration next year on the anniversary of the conclusion of peace between the north and the south in 1865. The Hon. George W. Young of Marion, Ill., was not present and his paper on the Williamson County Vendetta, was read by Miss Jones of Danville. The Jacksonville men in attendance were Andrew Russell and President Rammelkamp, directors of the society and Mr. Ensley Moore, who has long taken an active interest in Illinois and Morgan county history.

A special committee composed of J. H. Burnham, Bloomington; W. H. Jenkins, Pontiac, and S. C. Silliman, Chenoa was appointed to ask the cooperation of the state camp of the G. A. R. in the celebration, which promises to be of great historical interest.

All officers of the society were unanimously re-elected, and Governor Edward F. Dunne, Dr. William Jayne, Clinton L. Conkling and Sidney S. Brees of this city; Judge J. O. Cunningham, Urbana; Dr. J. E. Chamberlain, Pasadena, Calif., were elected as honorary members. The secretary's report submitted by Mrs. Jessie Palmer Weber, secretary, showed the society to have a total membership of 1,583, the largest membership of any historical society in the United States.

PROTEST PROPOSED INCREASE.
Kansas City, May 8.—Representatives of two Kansas towns that flourish because of the brick industry appeared here today at a hearing before Royal T. McKenna, representing the inter-state commerce commission, to protest the application of railroads for an increase in freight rates from Kansas to points in Missouri and Iowa. The railroads ask the rate be advanced from ten cents a hundred pounds to twelve and one half cents.

L. R. PENFIELD DESCRIBES "WAR" TO CONGREGATIONAL BROTHERHOOD

Says That it Takes Months to Turn Civilians Into Fighters and That New Recruits Are Almost Valueless—New Officers Elected.

"There are three distinct periods in the making of a soldier," said L. R. Penfield in a talk on "War" before the Brotherhood of the Congregational church, Friday evening. "He first has to go through the grumbling stage when he finds fault with everything from the food to the constant drilling. Then he gets unutterably homesick and thinks what a big fool he was for ever enlisting. In two or three months he is either ready to quit as failure or prepared to make up his mind that he is in for it and develop into a real, efficient soldier." Mr. Penfield's talk was based entirely upon personal experience and was well received. It followed a brotherhood supper at 6:30 and a short business meeting at which officers for the coming year were elected. Those on the supper committee were Marcus Robinson, R. P. Joy and J. W. Bowen.

Mr. Penfield enlisted in July, 1861 and served in the army as an artilleryman just ten days less than four years. He was mustered out with the rank of sergeant. He was a member of Battery B., of the First Ohio Light Artillery, serving with Palmer's division of Cruft's Brigade in the 21st Corps of the Army of the Cumberland. He was in two of the hardest fought engagements of the Rebellion, Chickamauga and Stone River.

Mexican War Not Inevitable.
"The War of the Rebellion could not have been avoided," said Mr. Penfield. "The North had compromised and had compromised again. The wisest of men could not have averted the conflict. Lincoln was elected on a platform which meant a resort to arms to save the union and when the time came the North was ready. With the present trouble in Mexico, the case seems to be different. Nothing has happened so far in my opinion which makes imperative a fight down there. We will probably have trouble however unless we abandon or amend the so-called Monroe Doctrine."

"The young fellows of today do not know what war means. They do not know what to expect. The new recruit is impatient of restraint; he wants to know what he is going to do and where he is going. A real soldier never asks a question. He gets to the point where he does not care what may become of him and he goes where ordered without asking why."

Some Thrilling Experiences.
Mr. Penfield told of his first sight of a wounded man. It was while campaigning in central Kentucky and made an impression never to be forgotten. He described the frightful carnage at Stone River when a charge of cannon slaughtered more of the men in his division than were killed during the remainder of the war.

"At Chickamauga was shown one of the ironies of war. The battle was lost by literal obedience to an order and the army was saved by disobedience. Wood's advance the afternoon of the second day left a gap half a mile in width into which Longstreet poured, cutting our army in two. General Thomas placed himself in the gap and General Steadman disobeying orders and coming to the rescue, saved the day. It was at this battle that we saw our worst fighting and it was here that our battery had perhaps its closest call."

Mr. Penfield described the killing of General Nelson in a hotel at Louisville, an incident which he came within an ace of witnessing. Nelson was shot in cold blood by General Jeff C. Davis, after a quarrel. General Davis was the brother of Capt. William Davis, who married a Miss Fuller of this city and was for some years a resident of Jacksonville.

The New Officers.
The meeting was closed by a few remarks by Capt. J. H. Freeman, a former resident of the city, who with Mrs. Freeman is visiting here for a few days. At the business session, Mr. Penfield, as retiring president, was in charge. The new officers are:

President—B. W. Smith.
Vice-president—S. A. Fairbank.
Treasurer—J. A. Palmer.
Secretary—Frank T. Irving.
Teacher—Julian P. Lipincott.
